Passion for cycling
The impossible just takes
a little longer

BKOOL

In keeping with our philosophy, we only design and manufacture smart trainers, which, along with our simulator, make for a unique riding experience.

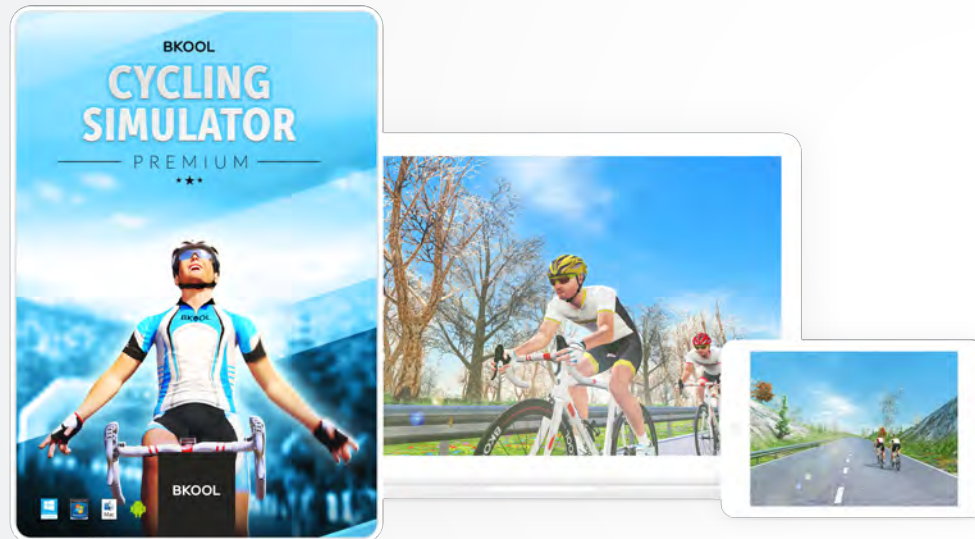

BKOOL

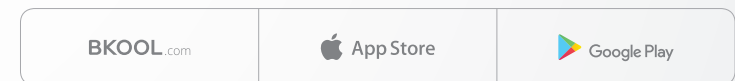

Bkool Simulator

Ride any route on Earth alongside thousands of users from all over the world.

You decide!

Available for Windows, Mac, iPad and Android.
Download the simulator from:

Routes

New York or Tokyo?

Discover thousands of routes around the world. Choose between video and 3D.

Upload your own outdoor routes and enjoy those shared by other users.

Bkool 3D Real Weather™

is an exclusive, Bkool-patented technology.

Experience in real time the weather and daylight conditions present anywhere in the world.

Leagues, Competitions and Velodrome

Fight for the Tour's yellow jersey or the Giro's maglia rosa! Compete online in multi-player leagues and challenges with users from all over the world.

Feel the adrenaline!

Multi-player. Train with Bkoolers from other countries at any time of day.

Leagues. Take part in our sponsored competitions with hundreds of prizes, or if you prefer, create your own.

Gifts. Many prizes available that participants can win.

Velodrome. Enjoy a different type of cycling with games and classical races.

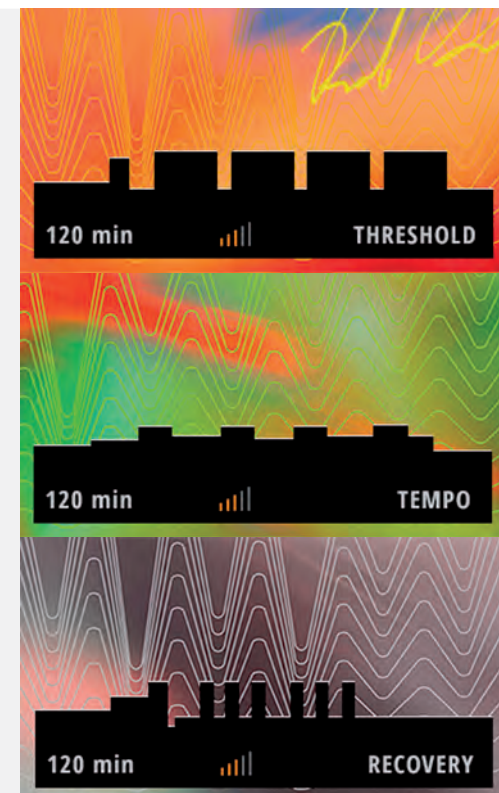

Workouts

Specific workouts

Choose from the wide variety of workouts available or create your own.

Personalized experience

Each workout is tailored to your fitness level.

Workout creator

Customize what and how to train. It's simple and intuitive thanks to our innovative Workout Creator.

Connect to Training Peaks

Import your workouts from Training Peaks to Bkool and train from home.

Start training today!
