

KICKRCORE

smart bike trainer

THE ESSENTIAL INDOOR SMART TRAINER

2 KICKR CLIMB

Grade simulator positions riders to simulate up to 20% incline or 10% descent and pairs to the KICKR CORE Smart Trainer to deliver an unmatched training experience.

3 KICKR HEADWIND

Smart fan can be manually controlled or paired to ANT+ speed sensors, heart rate monitors, and smart trainers to blast riders with up to 30 mph of targeted, cooling airflow.

1 KICKR AT THE CORE

By using the proven flywheel technology and advanced algorithms, the KICKR CORE delivers the realistic, accurate and quiet indoor training experience you expect from Wahoo.

DESIGNED TO ENDURE

Built from robust steel, KICKR CORE stays in place while you crank out the watts and stands up to years of heavy use.

SMART RESIST

Set your resistance or power threshold through your chosen smartphone app or computer software for the most efficient workout possible.

POWER, SPEED & DISTANCE

KICKR CORE provides these vital cycling metrics on your indoor ride.

GET THE MOST OUT OF YOUR KICKR TRAINING EXPERIENCE

VIRTUAL TRAINING

Ride KICKR CORE along virtual routes and geo-synced videos to experience the most immersive indoor training experience.

STRUCTURED WORKOUTS

KICKR CORE delivers the accuracy and responsiveness needed to take on the most difficult power-based training sessions.

ELEMNT GPS BIKE COMPUTER

The ELEMNT GPS bike computer directly controls KICKR CORE in multiple modes including re-riding outdoor routes, importing planned workouts or setting your target watts.
